SCOPE OF WORK

Converting dilapidated storage facility into high tech offices and upgrading of high security emergency station. To supply all labour, materials, supervision and equipment for the removal of the existing services and cleaning up debris. Remedials, exterior and interior cosmetic clean up including building, tiling and painting, and installation of all new services.

TECHNICAL DATA

KEY PROJECT OUTCOMES

Client needed new maintenance offices for their organization, and an upgrade to their emergency station whilst staying fully operational.

KEY PERFORMANCE AREAS

- Successfully completing a project in a fully operational, highly secured building.
- Advanced Technological installations.
- High end finishes according to architectural designs.

PROJECT CHALLENGES

- Extreme high security requirements including security training for the whole of Acorn to be accepted as ACSA accredited builder.
