SCOPE OF WORK

To supply all labour, materials, supervision and equipment for concrete plinth with a wide radius to carry two water tanks for fire safety measures.

TECHNICAL DATA

KEY PROJECT OUTCOMES

Construct a plinth wide and strong enough for two water tanks used for fire safety.

KEY PERFORMANCE AREAS

- Delicate concrete work with the finest precision.

PROJECT CHALLENGES

- The need for accuracy in this project was cardinal up until the las millimeter, for the effectiveness of the fire tanks.
